Designer Christmas Trees by Omniarts of Colorado

No more searching all over for just the right trims to go together and buying huge packages of beads, etc. when only a few are needed. Everything is right here! A generous supply of decorations allows for extras to trim matching garlands, wreaths, etc. if the back of the tree is not decorated or a smaller tree is used. The kits and decorations packages include directions to make a tree using craft pine. Each Designer Christmas Tree is available in the following 3 packages: the kit package (K) includes all the parts to make ornaments, garlands, tree skirt, trims and tree topper with complete instructions on decoration assembly for tree trimming as well as suggestions for decorating the tree. The decorations package (D) includes pre-assembled decorations and suggestions for tree trimming. The tree package (T) includes a complete, 8” craft pine tree with all trimmings and decorations in place, ready to display.
