JEWELRY BY OMNIARTS

Jewelry hand-crafted by Virginia Rinard using fine brass or steel wire & tiny glass beads & rhinestones. All necklaces & bracelets actually open & close so they can be used on mini people. If you plan to put the necklace on a particular doll, please measure the doll's neck and include that measurement with your order to be sure the necklace will fit. By bending gently, most can be molded to the shape of a doll or appear to lay casually on a dressing table or in a jewel box. **Do not shape more than once or twice or the wire will break.** All stones described are simulated unless otherwise stated. Custom colors may be available on request.
